---

Full Stack Developer with a self-taught background in various programming languages such as Python and Ruby. This foundation has facilitated a seamless understanding of new technologies and languages, fostering traits like independence, responsibility, and discipline. Specialized in Front-end, Back-end, and database technologies, with expertise in agile methodologies, GIT, data structures, algorithms, and Frontend frameworks like "Next.js" and "Redux Toolkit." Proficient in **TypeScript, Javascript, Python, PostgreSQL, Sequelize, Node, Express, React, Next.js, Redux Toolkit, and Tailwind CSS**. Demonstrates leadership, effective communication, teamwork, continuous learning, and maintenance and troubleshooting skills. English proficiency: C2.

PROJECTS

Full Stack Web Developer : -Nest: Your home Wherever you are   oct 2023 - nov. 2023
Academic Experience: Henry Bootcamp

Project Description: A platform for the sale and rental of properties, aimed at creating a functional web application without the typical bugs found in larger companies of this kind. Emphasis on security, trust, reviews, and ratings for a comprehensive understanding beyond the property itself.

Role in the Project: Collaborated, worked, and led the team. Developed the user experience.

Front-end: TypeScript, Next.js, Redux Toolkit, Tailwind CSS
Back-end: Nest, TypeScript
Database: PostgreSQL, Sequelize
Front-end Repository | Back-end Repository

Full Stack Web Developer - Estudio de Francisco   nov 2023 - dec. 2023
Professional Experience: Estudio de Francisco

Project Description: A website providing information about an architecture studio, enabling users to view works, murals, the team, etc. Geared towards potential clients considering the studio for their projects.

Role in the Project: Worked independently on the entire project. Developed the user experience, database, server data, and routes.

Front-end: JavaScript, React, Redux Toolkit
Back-end: Node, Express
Database: PostgreSQL, Sequelize
Front-end Repository | Back-end Repository

TECHNOLOGIES:

Programming Languages: TypeScript, JavaScript, Python
Framework Tools: Node, Express, Sequelize, React, Next.js, Redux Toolkit
Database: PostgreSQL
Tools: Git, Jira, Confluence, Slack, AWS (Amazon Web Services)
Agile: Scrum
